

THANK YOU FOR DOWNLOADING OUR BACK-TO-SCHOOL FLIP BOOK!

We hope this resource helps you welcome your students and families while making the start of the school year a little easier.

Whether you're using it for Meet the Teacher, Open House, or the first week of school, we hope it's a resource you'll enjoy using year after year.

We'd Love to See Your Flip Books! If you use this resource in your classroom, we'd love to see it! Tag @therigorousowl and @astrobrights on Instagram so we can see your colorful flip books in action. Seeing how teachers bring these ideas to life is one of our favorite parts of creating resources!

Happy Teaching!

BEFORE YOU BEGIN

Before assembling your flip books, take a few minutes to personalize the editable pages for your classroom.

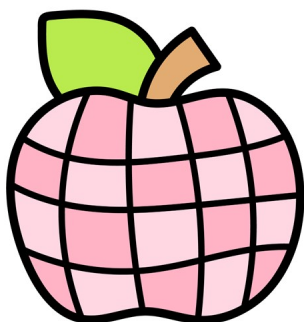

What's Included

- Editable PDF
- 7 editable flip book pages
- Assembly Directions

Helpful Tips:

- Edit the template slides.
- Each printed set creates 2 flip books. For example, if you have 28 students, print 14 copies of each page.
- Print at 100% (Actual Size) to ensure the pages align correctly.
- Print each page on a different color of Astrobrights® Papers to create bright, easy-to-read tabs.

How to Edit: Download and save this PDF to your computer. Open the saved file in Adobe Acrobat Reader. Click inside the editable fields to add your own information. Save your completed file before printing.

ASSEMBLY DIRECTIONS

1. Open the file and add your classroom information.
2. Print one copy of each of the 7 pages. Each complete set will make 2 flip books.
3. Cut along the dotted line at the bottom of every page.
4. Arrange the pages in this order:
 - Welcome (front)
 - Contact Information
 - Homework
 - Supplies
 - Schedule
 - What We're Learning
 - A Note from the Teacher (back)
5. Stack the pages in order, placing the Welcome cover on top and the A Note from the Teacher page on the bottom.
6. Tap the top edge of the stack on a flat surface until all of the pages are even. The pages are pre-sized, so they will automatically create evenly spaced flaps.
7. Staple across the top using 4 evenly spaced staples.
8. Cut the stapled stack in half lengthwise along the center line to create 2 flip books.

TEACHER TIPS:

- Edit once and print as many sets as you need.
- Print each page on a different color of Astrobrights® Papers to make each section easy for families to find.
- Each printed set creates 2 flip books, making class sets quick and economical to assemble.

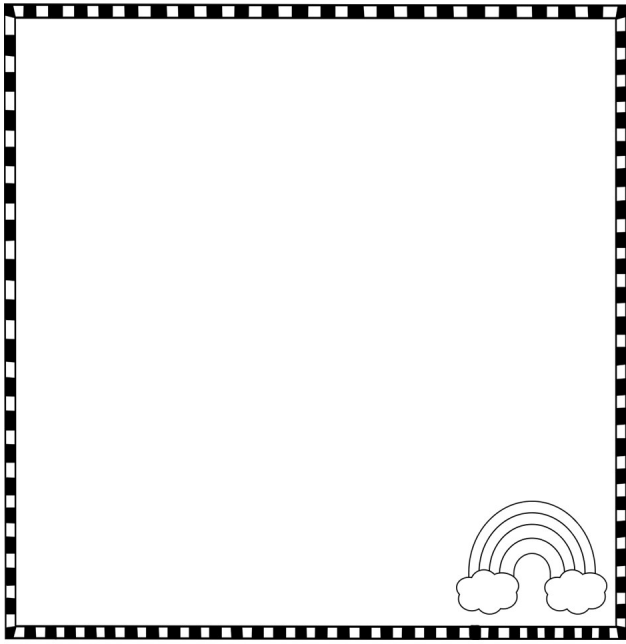

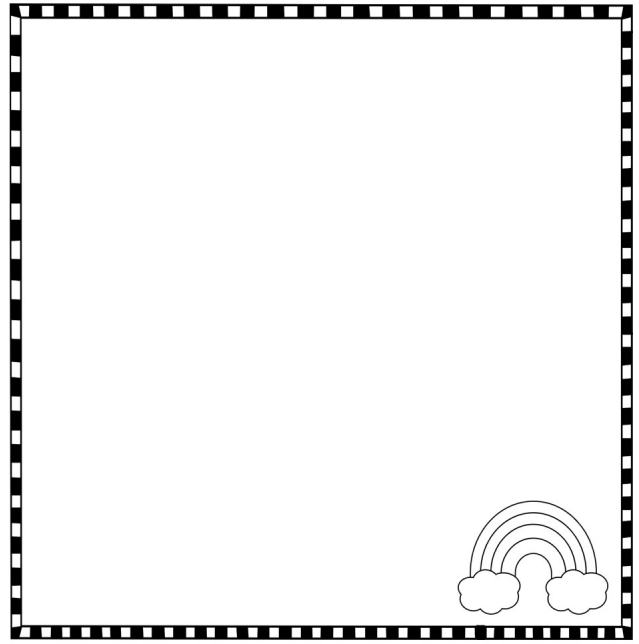

WELCOME!
